EXTRACURRICULAR ACTIVITIES

In my spare time I love to practice sports, namely tennis, mountain biking and cycling. During holidays I enjoy going on a city trip with friends or travelling to places with beautiful nature for a more adventurous experience. For four years I have joined a youth movement in Leuven. Each year we organized a party to raise money for a good cause as well as to sponsor our group activities during the year. By being a member of this group, I met a lot of new people of different ages and was able to participate in group activities and make new friends.
